

JOIN OUR TEAM!

LICENSED VETERINARY TECHNICIAN

WHO ARE WE LOOKING FOR?!

LVTs are an integral part of the medical team; this person must be caring and patient, but also must succeed in the unpredictability that is inevitable in any veterinary practice. Our LVTs work alongside our DVMs, developing diagnostic and treatment plans, discussing cases, and evaluating best medicine practices together as a team. This is truly one of the most important roles in our practice, as you are our front line in providing top-notch medicine and client education and therefore the key to compliance!

We are looking for someone who has the drive and passion to utilize their current technician skills, while also striving to build confidence, improve their craft, and provide outstanding care as an LVT at CVC.

A CVC LVT will thrive in a positive and collaborative working environment. You will not be just an employee, but you will be a part of our family; a family that celebrates our successes together and also supports each other through our troubles. We take care of each other, our patients, and our clients the same way you take care of your own family. We also know that having fun together is part of what makes our team even stronger!
